The Best Selling Line of Acoustic Amplifiers

Amplification for acoustic instruments. Fishman pickups and preamp systems are acclaimed worldwide for their warm and accurate sound. Over the last 35 years, more than 7 million of them have been installed in acoustic instruments of every conceivable style and kind. Fishman Loudbox amplifiers are created with that same sense of musicality and accuracy. And that's why more players choose Fishman Loudbox amplifiers than any other.

Un-wind with Fluence® by Fishman

The technology and art of performance infused into electric guitar pickups.

The electric guitar pickup has been wound since 1934. 80 years later, we've unwound it. Original and totally re-imagined, Fishman Fluence pickups are free from the hum, noise and frustrating inductance issues that plague even the most coveted wire-wound pickups — revealing pure, uncorrupted and musical tone.

PATHFINDER AMPS

PATHFINDER 10

The VOX Pathfinder 10 is a 10 watt practice amp with one 6.5" speaker. **This is an AC only amp.**

V9106 List Price Dealer
\$119.99 \$60.00

The eye-catching looks of these 10-watt combos are also classic VOX and include basket-weave, leather-look, our distinctive diamond grille cloth and, of course, chicken head knobs! Small but all-important details such as the white piping have also been faithfully reproduced, perfectly recapturing the legendary look of VOX. The all-analog, solid-state design is responsive and chimey, just like a VOX should be.
